

Product Change Notification

Product Group: Vishay Foil Resistors/ November 10, 2006/ PCN-FD-015-2006, Rev.0

VCS2516 rename to VCS1625

DESCRIPTION OF CHANGE: Vishay Foil Resistors Division released a name change for the Foil Surface Mount current Sensing Chip Resistors VCS2516 and VCS2516Z to VCS1625 and VCS1625Z respectively, with no changes to parameters and performances.

CLASSIFICATION OF CHANGE: Product Marking

REASON FOR CHANGE: Compliance with JEDEC standard for Surface mount components, where the first number represents the dimensions perpendicular to the pads (length), and the second one represents the parallel dimensions (width). The incorrectly (historically) named VCS2516 has already caused an unfortunate misunderstanding with a customer.

(Note: If it is extremely difficult for customers to currently rename this type VCS1625, they have the option to continue entering orders using VCS2516, but it is highly recommended that the type be renamed to VCS1625).

EXPECTED INFLUENCE ON QUALITY/RELIABILITY/ PERFORMANCE: There is no influence on performance, quality, or reliability.

PRODUCT CATEGORY: Discrete, Surface Mount current Sensing Chip Resistors

PART NUMBERS/SERIES/FAMILIES AFFECTED: VCS2516, VCS2516Z

VISHAY BRAND(s): Vishay Foil Resistors

TIME SCHEDULE:

Start Shipment Date: January 25, 2007- Date when shipments with changed name will start to occur

Last Time Buy Date: N/A

Last Time Shipment Date: N/A

SAMPLE AVAILABILITY: N/A

PRODUCT IDENTIFICATION: Marking

QUALIFICATION DATA: N/A

This PCN is considered approved, without further notification, unless we receive specific customer hesitation before: December 25, 2006 or as specified by contract.
